✓ CANDY PACKAGING

✓ DRY FOOD PACKAGING

✓ FROZEN FOOD PACKAGING

✓ COSMETICS PACKAGING

✓ COFFEE PACKAGING

✓ SNACK FOOD PACKAGING

✓ SPICE PACKAGING

✓ NUTRITIONAL PACKAGING

Our Products

High-Barrier Packaging Film

One of the most **common challenges** facing food products is shelf life. **High-barrier packaging** helps retain rich flavors and aromas by creating a tightly sealed barrier system.

The barrier **film works to efficiently** block oxygen transmission and water vapor from contacting sensitive foods.

TRL can work with you along the way to ensure that your package's **high-barrier film** is carefully constructed to meet your **product's specific requirements**.

Stand up Pouch

TRL Preformed stand-up bags are designed for **packaging and displaying** various food and spices including pet food, frozen foods, snacks and more.

Its sealed sides and bottom gusset **provide maximum strength**, allowing the bag to perform as a true stand-up pouch that's **perfect for bulk shelf storage**.

Shaped Pouch

Our shaped pouches can be designed to stand up or lay flat as a side seal pouch. we can also provide a gusseted bottom to **give the pouch more structure**.

Our shaped pouches **work well for a variety of applications** including snack foods, pet food, cosmetics, nutritional supplements and more.

Quad Style Pouch

Our pinch bottom bags feature full-height gussets that **increase filling volume** and provide a **larger promotional canvas** for your brand. Similar to a box package, quad seal bags have four printable sides and can easily stand upright when filled with product.

TRL pinch bottom bags are far more **versatile and economical**. While rigid packaging is more restricting, quad seal pouches **provide more accommodating space** for larger products.

Lay-Flat Pouch

Despite their simple, flat design, our pillow pouches are an **incredibly effective solution** for the **storage and transportation** of products such as chips, candy, cosmetics, household chemicals and more.

TRL pillow pouches can be **custom-made** for both resealable and **single-use packaging purposes** – whatever best suits your product and brand.

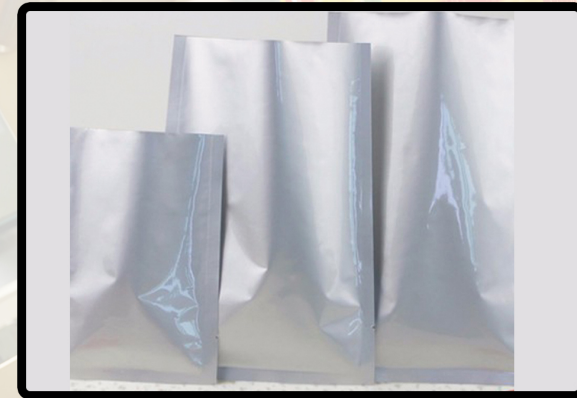

Foldover Pouch

Foldover pouches lay flat and do not stand up. Instead, the bottom of the pouch folds over and the sides are sealed to form a square shape that **provides more filling volume**.

Our foldover pouches are ideal for **single-use and multi-user applications**. Markets varying from the frozen food, snack food, pet food, cosmetic and household cleaning industries can **benefit from this efficient packaging pouch**.

3-Side Seal Pouch

TRL's **3-side seal pouches** are available in a **variety of styles** to suit your specific product and are ideal for **form fill seal (FFS)** machines and high-speed runs.

Depending on your specific requirements, the pouch will be **sealed on 3 sides** and feature an opening at either the top or bottom of the bag where your **product can be filled by hand or machine**.

Side Gusset Pouch

TRL's side gusset bags and pouches are **gaining popularity** for many applications across a **wide range of industries**. Their **durable material** helps **extend shelf life** by ensuring the product remains **safely sealed and protected**.

Whether you choose a **glossy or matte finish**, you can be sure that our side gusset packaging **will increase the visibility and awareness of your brand**.

Spouted Pouch

Using **high-grade manufacturing and printing technology**, our spouted pouch products are **well-equipped to safely store and transport** both liquid and dry products without the mess.

Beverages, cleaning products, liquid hygiene products – you name it, **TRL's liquid pouch packaging capabilities** are great for on-the-go consumers who need an **innovative pouching solution** that suits their fast-paced lifestyle.

Box Pouches

Our flat-bottom bag is your **go-to packaging solution** for candy, coffee, pet food, and various dry ingredient food products.

When packaging granular items such as coffee grounds, rice, and cat food, the quad seals offer **rigid support for easy storage**.

Our flat-bottom bags are a **popular choice in a wide variety of industries** due to their ability to hold **substantial product weight and volume** while remaining visually appealing on a shelf.

Rolled Film

Using the **latest technology** and **production techniques**, TRL roll stock film products are second to none when it comes to quality. **Roll stock packaging** is very common among products that require tight sealing, lamination, lidding, and flow wrapping.

Our roll stock film Specifically Caters to **Vertical Form Fill Seal (YFFS)** and **Horizontal Form Fill Seal(HFFS)** application.

The infrastructure we have

-> Roto Gravure Printing Machine

-> Inspection Machine
